

## 2017 Bonus Rates

### International Prudence Bond

This document is for information only and should not be considered a financial promotion. If you are not a financial adviser and there is terminology included that you would like to discuss, then please contact your adviser.

Shown below are the Overall Yields which combine Regular and Final Bonuses. The rates represent the compounded annual yield applicable for each investment period. For example, for a client who had invested in the Euro With-Profits Fund in April 2003, the amount added to their fund on encashment would be equivalent to 4.40% a year. For top-up investments, the Overall Yield depends on the date the top-up was made, not the date of the original bond.

The PAC With-Profits Funds and the PIA With-Profits Funds are invested in the same Sub-Fund of PAC's long-term fund and receive the same bonuses. The bonus history shown is for the stated PIA With-Profits Sub-Fund and reflects the investment in the underlying Prudential Defined Charge Participating Sub-Fund. The asset mix for PIA With-Profits Sub-Funds and the PAC With-Profits Funds is identical.

Regular bonus (currently Euro 1.50% p.a.†, Sterling 2.00% p.a.†, US Dollar 1.50% p.a.†, effective from 01/03/2017) is added on a daily basis through increases to the unit price. On encashment a final bonus may be added and the total value of units will then reflect the overall yields shown in these tables.

- \* Overall yields are for single premiums and apply from the relevant dates of investment to units encashed from 01/03/2017 until further notice. They make no allowance for Establishment Charge, Allocation Rate, Early Cash-In Charge, Fund Switch Charge or Market Value Reduction.
- † PAC reserves the right to reduce or remove bonus at any time without warning. Bonus rates will be reviewed at least annually.

### Important information

Past performance is not a reliable indicator of future performance. The rate of future bonuses in the PAC With-Profits Fund and therefore the rate of growth in the unit price cannot be guaranteed.

Final bonus may vary and is not guaranteed.
